Dear Mike,

I want to thank you for bringing your "Can I Kiss You?" program to Cardinal Stritch University last week. Since your program, there has been a lot of "buzz" with many, many positive comments not only from the students in attendance, but also from the staff and administrators who had the opportunity to hear you speak. Our dean of students especially appreciated the way you used humor to draw in the audience and then were able to elicit the responses you received from them.

Stritch's mission is to "Transform lives with value centered education". The message you brought to our students enhanced the value of the education they receive in the classroom by giving them valuable tools to use in their lives outside the classroom and I am confident will assist them in becoming more respectful to others and better communicators.

Our students are sporting their "Can I Kiss You?" t-shirts and sharing the information they received with those students who were not in attendance. The shirts are a wonderful marketing tool!

I especially want to say how easy it was to work with your office. Rita was very helpful and always so quick to respond to any questions that arose. I appreciated how accommodating you were with all the arrangements from our initial contact to the evening of the event. The projects and initiatives you are involved in sound very exciting and I wish you much success. I appreciate the offer to use your website and will be including it as a resource on the health services section of the Stritch website.

Thanks again, Mike and the Peers and I look forward to seeing you at the General Assembly in Chicago.

Sincerely,

Janet Zylstra
Director of Health Services
