Dear Mike,

Thank you so much for coming to the Waverly area and presenting your program to students from the local high schools and Wartburg College students. As you know, you were recommended to me by my son, who heard you during his freshman year of college. He knows that I present on the topics of healthy relationships and respect on an almost weekly basis, and he informed me that I simply "had to see this man in person". When my daughter and I came to Iowa City to hear you speak, we were absolutely blown away.

As a result, Cedar Valley Friends of the Family approached the Counseling Services at Wartburg College to see if they would like to help our agency bring you to Waverly, Iowa. Having also heard you before, they readily agreed. Once again, your presentation was fantastic. Our staff was absolutely AMAZED at the way you kept over 1100 high school students both interested and involved in the message you delivered. Even more amazing were the results of the evaluations that we requested of all those attending! For example, in the "pop quiz" administered to the high school students at their schools prior to your program, we included this statement: "If a woman doesn't say or do anything to stop sexual intimacy, then she is giving "implied consent" for that act to occur."

Before they came to hear you, only **21%** of the high school students disagreed with this statement!!!! In other words, almost 80% of the kids felt that if a woman doesn't say "NO", it's ok to go ahead and do what you want!!!

When we asked this same question **AFTER** your presentation, however, we saw a dramatic difference. After hearing you speak, **60%** of these same students disagreed with the statement. I think these numbers are a strong, strong testament to the power your presentation had on our young people.

I cannot thank you enough for your sincerity, your dedication, and your willingness to share the gift of a program that came as a result of so much personal and family pain.

Sincerely,

Cheryl M. Einsweiler
