Greenfield, WI 53220-0906

Dear Mr. Domitrz,

The Health and Wellness Programs Office at Gallaudet University would like to thank you for taking the time to present the Can I Kiss You? Program to the campus community. The extensive training that you provided to the staff, paraprofessionals, and student body will make each individual stop and think prior to acting in many situations in the future.

The staff and students truly enjoyed your presentation. They all very actively participated and were engaged throughout the entire session. The individuals were very interested in the material, and they will be able to actually apply into their own lives. The knowledge that they received will be a good foundation to build upon in their relationships. The Peer Health Advocates were pleased to have this program as a part of their outreach to the Gallaudet University students. We hope you will be able to provide this service again in the future.

If you have any comments or feedback about the programs, please e-mail me at gwendolyn.roberts@gallaudet.edu or call me at (202) 651-5432. Thanks again!

Have a healthy day!

Sincerely,

Gwendolyn S. Roberts
Health and Wellness Coordinator
Gallaudet University
