To Whom It May Concern:

On March 22 we had Mike come to campus to present the Can I Kiss You? program. It was successful on many levels. First and foremost, the student response was excellent. The show is highly entertaining, even for me who has been doing this work a long time! More importantly, the way Mike presents is very convincing, logical, and, I believe, gives students the skill to implement changes in their intimate lives. One student commented that she had thought asking was stupid when she came but left convinced it was smart, sexy, and something she can and will do.

The Pledge to Action that we chose to invite the audience to sign was very effective. It gave the students something immediate and tangible that they could do. We will use these pledges again during April

The train the trainer program afterwards excited my peer educators to make significant changes in the way they deliver their programs. While they loved the show, this is where they really tuned in to how to use Mike's techniques and ideas. Thus, Mike's message will continue on.

The logistical part of having Mike on campus was completely headache-free. Given my busy schedule it was delightful to have Mike and his team make all the arrangements for travel and hotel so that I could focus on the venue and audience.

I recommend Mike without hesitation and look forward to his returning to our campus in the future.

Sincerely,

Mona Anderson, M.A., LCMHC
Counselor and Coordinator, Sexual Assault Education and Prevention
