at Kent State University**

I thought you were a great speaker. I never thought about a lot of the things you said before. You really hit home for me. Thank you!

Awesome – incredibly informative. Learned so much that society never tells us.

Good speech. It really makes you think.

I learned a lot tonight and I am very glad that I was able to attend. I feel like my eyes have been opened to a new world. Thank you very much for sharing. I will ask. ☺

My impression towards this program was that I really learned a lot on how dating really is. I am now going to think on how I perceive the body language I am telling the guy I am talking to. Thank you for helping me.

Very good presentation & a good way to focus on the audience.

I thought it was really educational, and it helps knowing how many people it’s happened to aside from those that I know of.

I thought it was a very good topic and was presented well. I’ve been in this situation and I know it is important to tell people a true case of rape because when it happened to me, I didn’t realize it until it was too late.

I really like the different approach you took on the subject. It made me look at things in a different way.

It was awesome! It really made me think!

Good job! I connected with your speech! Keep up the good work!

It was a great program. Different that most I’ve seen. You really know how to relate to college students. Thank you for a great program!!

Very good. Good examples. Made me really think and look at things in a new way.

I enjoyed your presentation. It was informative as well as fun.

I thought this was a very good presentation – something that should definitely be taught to people earlier on (high school).

Awesome show. I never realized how it happens without you knowing. Thank you so much for coming to talk to us about something that is **too** quiet.

at Kent State University**

Great eye opener! Should be a speech that everyone hears in early education. Thanks!

I think many more people should to go this speaker. It makes me think about very important points on a very important subject. Very nice speech/lecture. It literally hit home! Awesome – two thumbs up! Great Job!! ☺

This was an awesome program for both single and involved people. Thanks for coming and please come again! This is definitely a problem on our campus and raising awareness will help! Thanks again!

I really enjoyed your presentation. I strongly agreed with everything you talked about and was just talking about making a change. This issue is also very close to me. I have friends who have been raped and it touched me.

I think that the program was very good. I’m glad that I attended.

Good presentation...Made Sense.

Very informative, interesting, and made me think.

I thought the presentation was done very well in an interesting and humorous fashion. I enjoyed it and learned a lot. Thanks!

It was a great experience. It was impressive and different. The techniques used worked well. It was definitely helpful information. It was educational and entertaining.

I wonder now if I may have done some of these things to other women. I’ll work hard to never do them again. Thanks for opening my eyes!

I like the way you approached your program. It had many good points that I will try to use.

Good info, but will never happen that way. Not how it really happens in real life. Would be nice if it happened in the way you said, but its just not reality.

I found it to be very informative. The information provided a clearer understanding of topics I would never bring up with anybody. Great show. I think the whole university should see it.

I thought tonight’s presentation provoked a lot of thought about what really occurs during dates. It was also very exciting and interesting.

I thought what you had to say was very accurate. I’ve been in a long relationship & we’ve always talked things over. You definitely presented this very well and kept my attention.

Thank you for sharing your sister’s story with us. It made the speech very good.

I really enjoyed your speech...it really made me think. You did a great job & respect your message to us very much.

I thought the program was really good and entertaining.

The presentation was awesome. I have heard some of these before, and this was the **best**. You presented it in a great way!

Very well presented, knowledgeable, interesting, and enjoyable.

I really enjoyed your time. Awesome points. I really hope that a lot of people walked away with a better perspective of the dating world. Please shake your sister’s hand. I think she is a truly amazing girl & I think she was a lot of courage.

I thought the program was very interesting and eye opening. It was also fun to listen to and definitely directed towards our audience.

I learned a lot!!

I△ 0 Thanks You!

I liked it.

Good show. Interesting information that makes people think about how real rapes are on campus.

Great speaker & good idea for program in Greek Life. Thankx!

A good program overall. Good info. Kind of one-sided, but good information to think about. Last analogy was great to leave people with.

I enjoyed it. It was funny & made me think. It wasn’t what I thought it would be. You are a very good speaker. Come back anytime. IKT

I liked this program and I learned a lot from it. It related to college life very well and hopefully opened many eyes.

I thought this was extremely effective. Makes you think of things that usually aren’t. Thank you very much. ☺

at Kent State University**

The show kept me interested in what you said. Mad me want to see how I can help to teach other people that were not here what I learned tonight. I was surprised by the way that it was put together so well.

Humorous & informative.

Very good; different type of talk and information than you would expect.

Very informative, interesting, and very good.

I think many things mentioned in the speech were very true & pertinent to many things that go on today. However, many people would not take the information seriously and finish it off.

I think that you are a very good speaker, and have a lot of good things to say.

Very good!

Good speech. Nice job.

You did a nice job. It was different & interesting & you made us think about our actions.

This speech was great. It definitely will make me think differently next time I am out at a party. Sometimes, I encourage my friends to hook up, but I promise that is something I will never do again. Thank you for sharing.

I thought the program was very insightful. It was very informative & think about things that actually happen.

The speech was an eye opener. I have almost always asked before I tried kissing my dates, but it wasn't something I would talk about to others. This speech showed me ways to do that comfortably.

Pretty funny, but I'm pretty much married so most didn't apply. Dating is essentially over.

Good examples for us to take back to our chapters.

Good program.

Impressive, good points, well done presentation.

I think it was very informational. You talked on our level with situations we could understand. But, I think you need to touch on same sex advances and how to appropriately accept or reject those advances. You also need to talk about rape of men from women and rape of women by women.

I thought you made lots of good points. It's definitely worth attending.

**Testimonials from “Can I Kiss You?” Presentation on Wednesday, March 19, 2003  
at Kent State University**

I learned a huge amount tonight. It wasn't new knowledge – it was a realization of what we all already knew. I really liked the presentation.

I thought this was a very interesting program as well as a thought provoking one. The manner in which the info was presented made it sink in.

Great.

I think that your program was good & it makes people think about stuff that people are normally afraid to say. It will make people think more about their actions. Even if they don't change, they are still more aware.

Great speech ☺! I really enjoyed it! You really know how to relate to college students.

I thought you were an excellent speaker. It really made me think..and I'm really going to try to live by this now! I know I've never been asked, and I should be. I totally understood what you meant about saying, “No” when they were **really** uncomfortable.

I enjoyed the presentation. It really made me think about my actions.

The program was informative. It raises many good points. But everything is talked about in general terms and may not be applied to all situations. It is really good for the heterosexual relationships and is adjusted for the heterosexuals. Some things cannot be applied to the gay community. The program assumes both people are looking for a relationship.

I really enjoyed the speaker tonight because I was entertained and informed at the same time. I wish my class lectures were this much fun.

It was a great program with a great motive. I learned a lot and have more respect.

It was great. More guys should listen to you. I hope they do (I'm a guy).

I thought that everything that was said happens in everyday life. I really put everything in perspective. It helped to show the importance of trust and truth.

Great, informative. I almost feel like I have been self-centered.

The program was very good. It was extremely educational.

It was very good.

Great speech. New view on dating and a great idea.

Very inspiring and a great new look on dating. Good ideas.

I really appreciate your program and making us understand how the dating world is. I really thought you did an incredible job. Thank you.

Very good speaker, entertaining, & kept interest with the audience. Participation; moving; and made some good points.

Tony the Tiger says, “GREATT!”

Very informative. Good energy. Things to consider: Tell people to look out for others at parties, even if they don't know them.

I thought you were a wonderful job and I am so happy that I come to listen to what you had to say.

I think it was a great speaker. He was very informative.

I totally agreed with everything I heard tonight. I have turned down a girl for sex on two different occasions because she said she didn't want to earlier, and although we weren't right for each other in the end, both relationships were better off for it.

Did a good job. It was funny and got the point across good.

Got boring at the end, but overall very good.

Good job. Got point across in a clever way.

Good job at crowd involvement. Examples and stories were good. Speaking was loud and clear (ie, better than most I've heard).

I thought this was very easy to listen to and really kept my attention. You really made me think of all the situations that I or my sisters have been in where it has technically been considered rape. Thanks for opening my eyes! Thanks!

Very influential! Great way to speak to students who experience conflict of this subject.

I thought this was a great program – it was great to see the differences between men & women. I just hope the men don't take your ideas and use them as part of their **game**☺! Seriously, it was wonderful & I hope everyone take something from it.

**Testimonials from “*Can I Kiss You?*” Presentation on Wednesday, March 19, 2003  
at Kent State University**

Great program looking at a totally different point of view. Brings reality to dating life & how respect should really be yourself and others.

Excellent speaker. Good/solid examples for why to ask for consent. Usage of personal experiences made for a touching presentation.

Very good & informative. Different approach to the issue.

I liked the presentation. Good points were made. Good speech before Spring Break.

Great job! I enjoyed it a lot, very interesting too. I will definitely think if a guy will ask to kiss me next time. Everything you said was very true! Good job.

I think the program was really great. All the points you made were correct and I can understand where you are coming from

You made an uncomfortable topic – comfortable to talk about.

It was awesome! A real reality check for people our age.

I want a boyfriend who thinks like you. Great Job!! ☺
