## LETTER OF ENDORSEMENT FOR Mike Domitz - Domitz & Associates, LLC

To whom it may concern:

May 13, 2003

It has been a privilege to have the opportunity to observe Mr. Mike Domitz in three different settings dealing with youth and those that work with youth. Mike demonstrated his outstanding presentation skills at Badger High School, Lake Geneva Middle School and presenting at the Wisconsin School Counselor Conference in Steven's Point, Wisconsin.

Mike Domitz was captivating, entertaining and educational with all three levels. His ability to understand his audience and engage youth right from the start was demonstrated by his thought-provoking and valuable information for youth.

During his presentation, *Can I Kiss You*, he finds an authentic way to relate with today's youth. His style is honest, fun and straightforward, as he delivers an uncomfortable but needed topic about sexual intimacy and dating among youth.

His message is personal, powerful and positive that is delivered with a professional manner. He understands how to communicate with students as they have emailed him, checked his website, [www.healthy-dating.com](http://www.healthy-dating.com), with follow up questions and have responded to his book, *May I Kiss You?*

I would highly recommend Mike as a presenter. His message is a needed resource for educators and students alike during our changing and challenging times. As much as this statement is over used, Mike Domitz, is authentically making a difference in the lives of children.

Sincerely yours,  
Rob Ocker  
Guidance School Counselor  
Lake Geneva Schools  
Lake Geneva, Wisconsin
