Dear Mike,

Thank you so much for providing such exceptional programs to our school in September. I heard nothing but positive comments from the faculty and students following your four performances. A few students even asked if they could see it twice. And many commented that you should come and speak to our students every year. There was much praise from our administrators who felt you dealt with a "touchy subject" very professionally, yet while talking to the students on their level and not talking down to them. The biggest compliment came from the Guidance Counselors who were thrilled that you were able to reach so many students in just 50 minutes. We were thoroughly impressed with how many students came in to talk to us about the performance with regards to their current behaviors and how they wanted to change.

Sexual assault is an issue for our school, but sex without respect is an even bigger one and you addressed that issue brilliantly. Thank you so much for opening the eyes and ears of our students and staff. We're sure you made a difference in many of our kids' lives.

Sincerely,

Jessica K Runte
